

# Community Infrastructure Center

Creating access to the expertise, training, capital and partnership networks required to advance your community infrastructure project.

### **Readiness Assessment**

- **01** HR&A completes hundreds of engagements a year to advance infrastructure and development projects past critical milestones:
  - Needs assessment
  - Site selection
  - Feasibility analysis and business planning
  - Impact analysis
  - Solicitation management
  - Land acquisition
  - Project finance
- **02** HR&A customizes assistance to cohorts of government leaders covering topics ranging from climate infrastructure investment to equitable budgeting.

	Overview
	The Grid Resilience Utility and Industry Grants support the modernization of the electric grid to reduce impacts due to
	extreme weather and natural disasters. This program will fund comprehensive transformational transmission and distribution
	technology solutions that will mitigate multiple hazards across a region or within a community, including wildfires, floods, hurricanes, extreme heat, extreme cold, storms, and any other event that can cause a disruption to the power system. The
	program will prioritize projects generating the greatest community benefit in reducing the likelihood and consequences of
	disruptive events.

MacBook Pro

**01** Our network of TA providers unlocked over 200M in grant funding last year for communities including tribal nations, community benefit organizations, climate technology companies building sought after solutions and local governments.

**02** The key to the success of the OpenGrants platform is a combination of cutting edge grant discovery tools and a robust TA provider network delivered to communities as needed.

#### **Provider & Content Matching**

- 01 Based on the current activity stage and project type, we pair communities with providers.
- **02** Providers can provide office hours, templates, data, resources, and tools that may be valuable for the project sponsor and can track the progression of the project.
